The CDG

Difference: Clark Design Group is a multi-discipline consulting firm with an uncommon and valuable difference. We are engineers who are business-oriented. We believe our job is to help our client save time and money. We protect our client's profits with insights and solutions designed to refine and improve their land development plans. CDG is responsive, resourceful and creative at helping foresee costly problems. CDG's clients receive the highest caliber engineering work along with a deep commitment to superior customer service and easy communications; and an emphasis on timeliness, accuracy and compliance.
